Welcome speech 歡迎致辭

I would like to welcome all exhibitors, buyers, and the media to this first International Property Management and Procurement Expo in Hong Kong.

This new Expo is designed to provide a unique platform for suppliers of property management related products and services to interact with professional managers in building and facility management. In recent years, rising living standards have fuelled growing demand for high quality property management services, as well as the latest user-friendly facilities. Our research identified the need for a professional exhibition to help property managers, real estate developers, owners' committees and corporations source more advanced and efficient systems, solutions, services and innovative products, to further add value to the properties.

This first Expo is gathering 216 exhibitors in 351 booths. Among them are many well known brands in the industry, covering AI technology, Internet of Things (IoT) solutions, smart building management systems, security systems, garbage disposal, waste recycling, cleaning and pest control, car park management, club house management, environmental protection and energy saving solutions, and various building repair and maintenance services.

In addition to the booth displays, there are 20 thematic seminars being held at the Expo, where distinguished speakers will share their views on industry trends and management discipline.

We would like to express our gratitude and appreciation to the following four industry associations for agreeing to be the official supporting organisations of our Expo and co-organising the thematic seminars: Chartered Institute of Housing Asian Pacific Branch, The Federation of Hong Kong Property Management Industry, The Chamber of Security Industry and Hong Kong Property Innovative Technology and Environmental Protection Association. In addition, we would also like to thank the Metro Radio Station for being our Radio Partner.

It is our plan to expand the international component of the Expo, and we look forward to welcoming you again in 2022.

C S Lee
Director
Comasia Limited

本人謹代表主辦單位歡迎各參展商、買家及傳媒參與我們首度舉行的「國際物業管理及採購博覽」。

隨著近年生活水平的不斷提升，今時今日的業戶對物管服務水平及優質設施的要求越來越高。有見業界正需要一個專業的展覽平台去協助物管公司、地產發展商、業主委員會、業主立案法團等採購最新和先進的物管系統與服務，從而提升物業價值，我們籌辦是項香港首個以物管為主題的貿易展覽會，銳意提供一個交流洽商平台，以及一站式展示各類物業管理服務及相關配套設施和產品，展出範疇涵蓋AI科技、物聯網(IoT)方案、智能安防系統、垃圾處理及廢物回收、清潔及防蟲、停車場管理、會所設施管理、環保及節能方案、維修及保養服務等。

首屆博覽會設351個展覽攤位，參展商多達216家，當中更不乏業內知名企業。除展覽部份外，博覽會舉行期間更有近20場精彩的專題研討會，業內資深講者將分享他們對物管行業未來發展和市場動向的精闢見解。

我們很榮幸得到英國特許房屋經理學會亞太分會、香港物業管理聯會、保安業商會及香港物業創新科技及環保協會，以及四個本地知名行業商會成為展會的支持單位和合辦專題研討會活動，謹此向他們表示衷心謝意。此外，我們亦十分感謝香港新城電台作為博覽會的指定電台合作夥伴。

建基今屆博覽會的成功，我們將計劃進一步擴大明年展會的規模和加強國際化，熱切期待各位對2022年博覽會的支持參與。

李志生
董事
康亞有限公司

Congratulatory Message 賀辭

On behalf of the Chartered Institute of Housing Asian Pacific Branch, I am delighted to extend my congratulations to Comasia Limited on the joyous occasion of the International Property Management and Procurement Expo. Also, I would like to express my gratitude to COMASIA for inviting us to be one of the supporting organizations for the Expo.

Over the years, Comasia Limited has been creating world-class exhibitions with a commitment to contribute to increased commercial values for Asian suppliers and international trade buyers. In the 2021 International Property Management and Procurement Expo, the show aims to act as a remarkable platform for property managers and service providers in Hong Kong, Mainland China, and across the Asian region to raise their service quality as well as making their operations cost-effective, more professional and all-rounded.

The real estate and economy of Hong Kong are evolving rapidly while the demand for better living and working environments is on the rise. There is thus, a need for the property management industry to respond to these new trends. Through its vision and devotion, the Expo will undoubtedly be beneficial to the growth of the property management industry and foster more business partnerships.

May I wish the 2021 International Property Management and Procurement Expo a complete success.

Matthew Ng
Chairman
Chartered Institute of Housing
Asian Pacific Branch

本人謹代表英國特許房屋經理學會亞太分會向康亞有限公司及其主辦的「國際物業管理及採購博覽」致以衷心的祝賀。此外，本人亦感謝康亞邀請我們成為博覽會的支持機構。

多年以來，康亞一直致力於打造世界一流的展覽，並為亞洲供應商和國際貿易買家提高商業價值。在「2021 年國際物業管理及採購博覽」上，該展會旨在為香港、中國大陸和整個亞洲地區的物業經理和服務提供商提供一個卓越的平台，以提高他們的服務質量，並降低他們的運營成本，使之更高效、更專業、更全面。

香港的房地產和經濟發展迅速，人們愈趨嚮往更優質的生活和工作環境，物業管理行業亦需應對這些新趨勢。憑藉其遠見和奉獻，博覽會對物業管理行業的發展大有裨益，並促進更多的商業夥伴關係。

祝願「2021年國際物業管理與採購博覽」取得圓滿成功。

吳海清
主席
英國特許房屋經理學會亞太分會

Congratulatory Message 賀辭

Congratulations on the success opening of the International Property Management and Procurement Expo. It provides an innovative platform for the Property Management and the related stakeholders to discuss the future developmental directions and ideas in the industry.

In recent years, Property Management has been facing great predicaments from increasing both operation cost and competitive Human Resources. Many businesses make every endeavour to sustain their competitiveness and stability. The industry has introduced new techniques like standardization, automation, intelligent in order to maximize the resources and service qualities. The notion about cost reduction and operating under unfavourable business environment will be an important issue in coming future.

The Federation of Hong Kong Property Management Industry was established since 2010. Our mission is not only striving for the relevant rights for small to medium Property Management companies but also maintaining industry sustainable development. We will continue to make every effort in enhancing the industry's professionalism, competitive power and promoting development in China and its regional areas. It is our honour to be one of the supporting agencies and we will devote our full supports to this extraordinary event.

I, on behalf of the President of the Federation of Hong Kong Property Management Industry, wish great success in the International Property Management and Procurement Expo.

Davis Wong
President
The Federation of Hong Kong Property
Management Industry

首先恭賀「國際物業管理及採購博覽」順利舉行，成為香港首個一站式的物業管理界別與相關持分者的展覽會，創建行業新平台及交流方向。

物業管理服務近年來面對人力成本不斷上升及營運成本增加背景下，企業必須積極尋求方法解決問題，保持競爭力及盈利的穩定性。因此在物業管理中引入新技術、新設備、推行標準化、自動化、智能化及物業聯網化，努力提高管理效率與服務質量，抑制成本上升及公司營運的不利因素等，都是物管業未來的新趨勢。

香港物業管理聯會自2010年成立，目標除為中小型物業管理公司爭取權益亦希望團結業界令行業有長遠可持續的發展，提升管理專業水平，提升市場競爭力，推動參與大灣區及國內各地方發展。是次聯會作為「國際物業管理及採購博覽」的支持單位，本會定必百分百給予肯定及支持。

最後，本人以香港物業管理聯會會長身份，代表聯會祝賀展覽會圓滿成功。

黃健平
會長
香港物業管理聯會

Congratulatory Message 賀辭

Congratulations to the first International Property Management and Procurement Expo!

Hong Kong is a well-developed modern city with the high speed living and working pattern. The dense population and different types of commercial and residential buildings combine a unique social structure. Property Management has become an important philosophy. The Guangdong-Hong Kong-Macao Greater Bay Area project leads Hong Kong towards a broader vision of future development. An efficient, safe and rigorous management team, combined with the application of innovative technology and facilities, has brought the property management service to a new level.

Chamber of Security Industry (CSI) is pleased to be the support organization of this international exhibition. We emphasize on improving the service level of the industry, reducing operating costs, saving resources and environmental sustainability, and improving the professional level of property management personnel. We hope to share experience and knowledge with the visitors from all over the world to achieve the common mission - to provide better property services!

On behalf of CSI members, we wish you a very successful event ever!

Johnny Ho
Chairman
Chamber of Security Industry

熱烈恭賀全港首屆「2021國際物業管理及採購博覽」在香港會展舉行!

香港是一個高度發展的現代化都市，稠密的人口，快速的城市生活及工作節奏，不同類型的新舊商住物業建築，均需要高效、安全、嚴格的物業管理團隊，配合創新技術的設備及科技軟件系統為客戶提供高品質的物管服務。近年來更接軌中國大灣區的蓬勃發展，無論商業或住宅的擴展藍圖越益宏大，更需要專業高效的物業管理隊伍。

保安業商會很榮幸成為首屆「2021國際物業管理及採購博覽」的支持機構，為提升物管業的服務標準，減低營運成本，提倡環保，節約資源，提升物管服務從業員的專業水平，與業界同行攜手協力，互享交流，推動物業管理服務行業向前發展！

何啟文
主席
香港保安業商會

Congratulatory Message 賀辭

Congratulations on the inauguration of the International Property Management and Procurement Expo!

Property management is a gate-keeping service for delivering safe, clean, efficient and pleasant working and living environments that are fundamental for creating livable cities. With an increasing city-wide emphasis on public health and environmental sustainability, the role for the property management industry will only grow more important. It's perfect timing to have this Expo as a platform for bringing together professional support and cutting-edge technological tools to take property management to a new age.

As a supporting organisation for the Expo, the Hong Kong Property Innovative Technology and Environmental Protection Association (HKPIEA) is at the forefront of promoting environmental sustainability through sharing property management best practices and innovation. We aim to foster more resource-efficient service and greater customer experience for elevating the property management industry in Hong Kong as well as mainland China and the region. We are very pleased to give our full support to the Expo that shares a similar mission.

On behalf of HKPIEA, as its chairperson, I wish you great success in the inaugural event!

Ida Chi
Chairperson
Hong Kong Property Innovative Technology
and Environmental Protection Association

「國際物業管理及採購博覽」正式誕生，成為全港首個物管業的展覽會，實在可喜可賀！

物業管理業界在建立安全、整潔、效率高、賞心的工作或居住環境、打造宜居城市的任務上，扮演著把關者的角色。隨著全城日益關注公共衛生和環保議題，物管業的角色更加吃重。

「國際物業管理及採購博覽」正好為業界提供一個平台，集合專業支援和先進科技工具，配合新世代的物管的發展需要。

香港物業創新科技及環保協會作為「國際物業管理及採購博覽」的支持單位，致力引領物管行業向前，以標榜行業典範和倡導科技環保，在本地以至中國內地和周邊地區，推動提升物管服務質素及節省資源，達到更佳的效率及客戶體驗。協會與展覽的理念相近，本會樂於予以百分百支持。

我謹以香港物業創新科技及環保協會主席的身份，代表協會祝展覽會旗開得勝。

季玲英
主席
香港物業創新科技及環保協會

Chartered Institute of Housing Asian Pacific Branch

F-36

(852) 2356 8680

apb@cih.org.hk

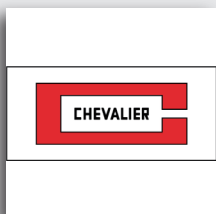

www.cih.org.hk

The Chartered Institute of Housing (CIH) is a professional body for housing managers with headquarters in the United Kingdom. Throughout the years CIH actively advises the code of government on housing management policies, promotes the code of ethics among housing practitioners, educates and nurtures housing professionals, and works to advance the development of the profession.

In 1965, the Institute of Housing was formed and received its Royal Charter in 1984. The Hong Kong Branch of the Institute was first established in Hong Kong in 1966 and was renamed as the Asian Pacific Branch (CIHAPB) in 2001 to reflect the wider spectrum of services it renders.

CIH has over 17000 members worldwide, with about 3400 from the Asian Pacific Branch. It's members work predominately in government housing authorities, educational institutions, private corporations and non-governmental organisations in the UK and the Asia Pacific Region. Professional both the public and private sectors in the UK and Hong Kong. In 2020, CIHAPB was confirmed to be the one of the first batch "Recognized Professional Bodies", which showed the leading and professional position in the industry.

<https://corp.hk.chinamobile.com/tc/>

NB-IoT Sensors, Jechat, Smart Parking Management, Smart Fleet Management, Smart Washroom, WorkMate (Mobile Office Automatic App)

China Mobile Hong Kong's Smart Property Management Application product breaks the non-transparent information environment in a traditional property management industry's manual, inefficient and solidified model. The application applies end-to-end data management from equipment, network to platform through diversified intelligent sensing equipment, NB-IoT communication technology, and OneNET equipment management platform, replacing manual inspections with intelligent sensing equipment, and monitors monitoring environmental data twenty four seven. With real-time transmission to the management platform via the IoT network to assist users in remote management, the application successfully digitized property status. Property management personnel can efficiently and scientifically manage the property to save manpower and time, resulting in enhanced user experience. To bring a new smart experience to the user, the current solution covers a variety of scenarios, including smart buildings, smart offices and smart toilets.

Indoor Air Quality (IAQ) Measurement, Antimicrobial Coating Service, Air Duct & HVAC Cleaning Sanitization Service, OT Room & Cleanroom Improvement Plan, Air Cleaner, Air Purifier, HVAC System Equipment, Air Filter, HEPA Filter, HVAC Filter, Air & Water Purification, Sterilization and Disinfection Solution

info@ductpro.com.hk

www.ductpro.com.hk

Most people are now aware that indoor air pollution is an issue of growing concern and increased visibility. After using the air-conditioner for a long period, bacteria, virus and molds would be accumulate in AC (Air Conditioner) units, which might be able to harm our health.

Besides, the accumulation of dust and fiber would decrease the cooling function of air conditioner, and enhance the power consumption of unit.

A regular and comprehensive AC cleaning service (included cooling coil, the blower, filter, vent and drain pan cleaning) can prevent of above problems and maintain healthy indoor environment. As regard to healthy and economic factors, user should clean the AC at least a time per year.

We are dedicated to help our clients achieving their goal of optimum energy utilisation, saving budget and precious time with our self-developed tech products and services.

To cope with this fast developing smart Internet-of-thing era, we developed our [Skymon] brand with a complete series of smart lighting products targeting commercial and institutional applications where clients are expecting low cost high reliability products and localised prompt services. We are vertically integrated from PCB design production, product assembly to software development to system design, installation and after-sales servicing. We are currently expanding our business in Government and municipal projects, Universities and property management.

Skymon smart lighting provide typical wireless light system functions such as motion sensing, soft light dimming, scene group control setting. We also provide special light controller for fire services emergency lights and exit signs with automatic battery test and report functions. Our products can run on both cloud server as well as local server computer for those who don't want to put data in cloud. We continue to innovate in smart lighting products and is leading the industry's expansion to smart IOT system for professional markets.

Guardforce has taken the lead on delivering creative and sustainable solutions in the areas of Elderly Care, Robotics, Smart City and Internet of Things, which we believe are key elements for the future. Through our smart elderly care solutions, we apply facial recognition and IoT sensors to protect the elderly. Our robotics solutions can conduct disinfection, cleaning and delivery tasks to minimise risks to human. Our smart hygiene solutions use IoT sensors to engender a hygienic environment for all. We leverage technology to support the society's development blueprint and add value to our key stakeholders' business and operations also support our core business areas, with optimal energy and resources efficiency.

Hang Tai (Far East) Trading Limited

C-19

(852) 2889 3181

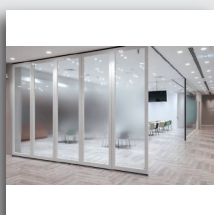

Window Films, Auto Film, Solar Control Blinds & Deco Films

info@hang-tai.com.hk

www.hang-tai.com.hk

With the passion of our founder in discovering innovative products and insight in future demand in green technology, Hang Tai (Far East) Trading Ltd ('HT') is established in 1979 and became the pioneer to introduce solar window film and promote energy efficiency in China. The renowned brand 'Skylight' solar window film brand is then established in the early 80's.

Built on the success in window film business, HT diversified its product portfolio to a comprehensive range of high-quality film products, from functional and decorative films and blinds for windows, a variety of self-adhesive decorative foils, media printable films to product application films. HT also developed its own self-adhesive foil brand – Filmotac in early 90's. Distribution covers China, South East Asia, North America and Eastern Europe.

In 2005, HT has successfully obtained Hong Kong & Macau sole distributorship of the world's leading brand of window film – LLumar. HT then launched a new product of Skylight solar control blinds in 2007.

In 2012, HT introduced the Netherland's renowned decorative foils brand Gekkofix to the Asia market. In 2013, HT introduced the ALL NEW Alkor self-adhesive foil to the market, and obtained its sole distributor for the South East Asia region, including Australia and New Zealand.

With growing public concerns over energy savings and environmental protection, HT has provided comprehensive and sophisticated 'Energy Efficiency Consultation' services to quite a few Government bodies, organizations, universities and schools. The company has gained wide recognition in providing quality energy saving consultations, and achieved several awards – 'Environmental Protection & Friendly Business Award' by North District Junior Chamber in 2009, U Green Award by U Magazine in 2010, and The Finalist in the Building Product Category in Green Building Award by Hong Kong Green Building Council in 2012.

With over 42 years experience in film business, HT plays a major and leading role in the film market with an extensive distributor network that well covers Hong Kong, Macau, China and South East Asia.

Healthy Giant Limited

D-17

(852) 2180 7129

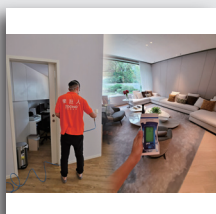

admin@healthygiant.hk

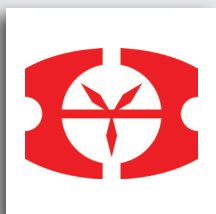

www.healthygiant.hk

Disinfection Services, Nano Protective Coating Service, Pest Control, Odour Removal Service, Formaldehyde Removal Service, Sanitizing Service

Healthy Giant's philosophy is to promote healthy life, promote hygiene protection, and improve the quality of life. In the 21st century, the world and Hong Kong are highly urbanized and commercialized. Under this trend, human health is often challenged by the environment. Even though the advanced medical sciences continue to prolong life, the types of diseases and infections continue to increase. In February 2017, the World Health Organization (WHO) first classified 12 types of "drug-resistant bacteria" according to their criticality. According to local infectious disease experts, these 12 types of bacteria are listed in Hong Kong hospitals and communities. In view of this, the health team of Healthy Giant introduces long-lasting antimicrobial and antibacterial of materials from cutting-edge biotechnology, hoping to bring more effective, comprehensive and thorough disinfection and protection to the public, while also creating a safe and sterile environment for various food production, hospital clinics, infant care industries. A healthy body is the foundation of a happy life, therefore we sincerely do our best to bring the best products and services into your home and community. Wishing you good health and happiness!

Hong Kong Misting Limited

B-26 & B-28

(852) 3152 3590

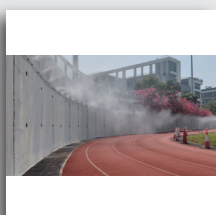

Ozone-Stabilized Aqueous Ozone Generator, Mosquito Trap, Air Conditioner, Evaporative Cooler, AC Chiller Misting System & Odor Removal Misting System

sales-eng@hkmisting.com

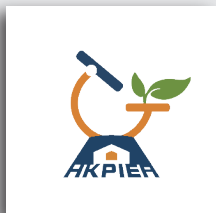

hkmisting.com

HK Misting is a local company established in 2009. We are committed to providing comprehensive and one-stop misting solutions to clients. Over these years, we have provided diverse solutions to our clients with our automatic water treatment systems, including cooling, energy-saving, dust reduction, mosquito control, deodorizing and misting.

Why Misting?

Due to global warming, the climate in Hong Kong becomes more extreme, with the weather being so hot outdoors in summer. As such, most families have to keep air-conditioning throughout the whole summer. However, for outdoor places like dai pai dong, bar or gardens, indoor air-conditioning cannot help. Moreover, the corresponding huge energy consumption and greenhouse gas emissions lead to a vicious cycle.

Security and IoT Systems

linda.lam@integrated.com

www.integrated.com

At Integrated Corporation, we are passionate about security technology and we are one of the very few leading high-end security and IoT solutions providers with our own dedicated in-house research and development laboratory.

Over two decades of security experience in Hong Kong

Established in 1995, we have over 25 years' experience providing integrated solutions for global enterprises, government bodies and educational institutions in Hong Kong, including a large number of Fortune Global 500 companies. We have been involved in landmark projects such as international airports, high security facilities and complexes, banks and financial institutions as well as university campuses and schools.

Integrated Corporation prioritizes client satisfaction

Because our clients are at the heart of how we work, at Integrated Corporation, our goal is to design and provide powerful and reliable security management and IoT systems specific to each client's unique requirements while maximizing their operational efficiency.

Innovation and creativity

We believe that innovation is fundamental to our success and we take particular pride in regularly working closely with industry innovators and our clients to set new standards. In recent years, we have also started collaborating with universities to explore new technologies in security.

Quality and reliability

We constantly seek to improve the quality of our product and service, and this is demonstrated by Integrated being certified for the ISO 9001 and IECQ QC080000 quality certifications since 1997. Integrated is well respected in the industry and has been awarded the honor of “Top 10 Security Brands in China” for 17 consecutive years.

natalie.cheng@etersqaure.io

www.metersquare.io

MeterSquare, established in 2019, is a start-up team with co-founding members and engineers equipped with domain expertise in streamlining workflow and communication, and also ample experience working with enterprises from different industries. Having had opportunities to work with leading property developers and construction consultancies in Hong Kong, we understand the true needs of digital transformation in the building and construction industry yet realise the digital solutions available in the marketplace do not offer a good fit to this traditionally complicated and technology-behind industry in Hong Kong. We, therefore, brought technology and ideas from other industries to automate the tedious tasks, streamline the workflow, facilitate communication and more importantly to boost up productivity.

(852) 2607 4303

matthew@opticalsensing-hk.com

www.opticalsensing-hk.com

Optical Sensing Develop, Design And Implement Fibre Optic Sensing System And Pattern Analysis To Realise Preventive Monitoring For Facilities And Structure ("The System"). The System Supports The Realisation Of Facilities 4.0 Which Is A Key Part Of Smart City/ Smart Infrastructure Roadmap Laid Down By Hong Kong Government In Its "Smart City Blueprint Announced By The Government In Dec 2017. Preventive Monitoring Is To Safeguard Valuable Facilities And Structure Assets By Identifying Potential Faults/ Abnormalities In The Early Stage So That Service Outage Or Asset Damage/ Malfunction Can Be Avoided.

Optical Sensing Limited (OSL) specialises in development and implementation of Smart City Infrastructure & Utilities systems.

We safeguard our Clients' valuable assets by using Fibre Optic Sensing System & Data Analysis Software. Our Systems realise Preventive Monitoring to identify potential faults before they would cause damages / service interruption.

Fibre Optic Sensing makes use optics as the sensing mechanism. It uses laser pulses emitted from a control. The fibre optic sensor itself does not require power and is maintenance free and fail-safe.

Applications include power distribution network (power cable, bus duct and switchboard), chilled water pipe, fresh water / sea water pipe, structure, railway systems & racks and motors.

We hold five patents (from HKSAR and Mainland China) and many industrial awards for our systems / products.

We have solid customer references populated in Hong Kong, Macau, Singapore, Indonesia and Vietnam spanning industries of Power Distribution, Chiller System / District Cooling Scheme, in-Building facilities / Smart Buildings. Railway, Water / Sea Water pipe and civil structure.

Established On The Foundations Of 'Relief In Security And Belief In Humanity'. R&B Is Constantly Working To Provide You And Your Family 100% Effective And 100% Clean Protection. Ranging From Certified Disinfection Products All The Way To Disinfection Machinery And Services Such As Disinfecting Door And ULV Disinfection Service, We Promise Professional & Comprehensive One-Stop Disinfection Solutions For Individuals And Organisations.

cwp@reliefandbelief.com

www.reliefandbelief.com

Established on the foundations of "Relief in Security and Belief in Humanity", R&B is constantly working to provide you and your family 100% Safe, The idea of Goodbye Germs stems from Dr Leung's experience.

Dr Horasis Leung believes that microbiology has a significant impact in this world, while biotechnology is a powerful tool for improving the environment and enhancing our lives. Biotechnology application not only plays a vital role in sustainable development but also in public health, food and environmental safety. Its usage covers laboratories, systems, regulations and beyond. His determination in the application of science and technology has motivated him to apply science for improving society.

Given the global health risks from SAR-2 pandemic in 2019, he founded Relief & Belief Scientific with his partners to provide a comprehensive service that ranges from disinfectant, air-fogging and other professional consultation.

Together with his team, they have sourced and tested different disinfectants to provide a safe, effective and affordable disinfectant solution against the virus.

As the main product developed by the team, Goodbye Germs's ability in cleaning, deodorizing, disinfecting and sanitizing are certified to be 100% safe, 100% effective and 100% clean. Not only could it eliminate COVID-19, but it also is toxic-free and can remove the allergen.

Relief and Belief uphold its vision of creating a worry-free life without impacting environmental sustainability.

"Relief in Security. Belief in Humanity."

Tencent Cloud

F-39 & F-41

(852) 3148 5100

Weiling is an IoT operating platform that manages and optimizes smart buildings. Relying on Tencent Cloud IoT Hub, it provides IoT service support, facility management and digital services for the hardware, application and other resources in the buildings. Endowed with the capability to drive digital transformation of the real estate industry, the platform provides a secure, stable and efficient connection that helps developers increase operational efficiency and creates positive user experience.

intl.cloud.tencent.com/contact-us

https://intl.cloud.tencent.com/

"To promote building automation and smart building control systems, Tencent Cloud provides an integrated Smart Building Operating System (Weiling) for automatic centralized control of a building's security, lighting, heating, ventilation and air conditioning system to connect all building operations through the Internet of Things (IoT).

Connecting the disparate information sources from physical and digital worlds, the Weiling platform integrates the insights into the buildings leveraging emerging digital technologies. The platform uses Building Information Modelling (BIM) to display data sets through a cloud-based, centralized management console, and uses artificial intelligence to analyze, optimize and automate for operational efficiency.

By fostering digital transformation of buildings, we recognize the value and operational efficiency of building automation, which ultimately enhances the user experience."

(852) 2667 8100

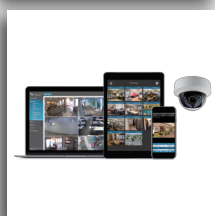

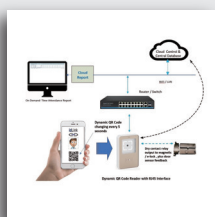

vrcnac@gmail.com

www.vrcnlimited.com

"VRCN Ltd. is primarily engaged in rendering Security-as-a-Service Cloud Platform Services including:
1. iDLink ACaaS - AccessControl-as-a-Service subscription based service for door-opening / time attendance on cloud & mobile using dynamic QR code in the mobile phone which keeps changing from time-to-time
2. Eagle Eye Networks cloud video subscription services, for example, CCTV monitoring, video recording on cloud, video archiving off-site, AI video analytics, e.g. alarm monitoring, people counting, security alarm, etc. based on months or years.
3. FinduSecu ""兼職易"" part-time security guard recruiting mobile app"

VRCN Ltd. Is engaged in the business of Electronic Security, Guarding & Identification solutions. The company owns the patent of a virtual cloud controller solution which enables offering of AccessControl-as-a-Service (ACaaS) on a subscription basis. On top, VRCN is the Value Added Reseller of Eagle Eye Network from USA, providing subscription based Video Monitoring, AI Analytics, Cloud Video Recording / Storage as well.

Most importantly, the use of traditional physical controller on-site is eliminated; providing a secure access to commercial premises, residential buildings and events in a more cost-effective way by an easier installation architecture.

VRCN Ltd is dedicated to developing different cloud platform solutions with focus on virtual card on mobile for door access by incorporating virtual credential in the form of dynamic QR code changing every 1 - 5 seconds. While tampering and copying the identity is prevented, the virtual card provides a secure identity to put through other IoT applications. In additions, secure contactless biometrics access control such as facial and palm vein recognition are also provided.
